Welcome to Civil and Environmental Engineering groups

Features of Departments

The Department of Civil and Environmental Engineering of the Graduate School of Engineering was established in 1961, after the grate damage by Typhoon Ise-wan. The departments have promoted education and research to foster international civil engineers and researchers who can take leadership with advanced expertise, practical skills, flexible ideas, global views and higher ethical standards for sustainable co-development of Japan and Foreign countries in civil engineering field.

In 1987, the Forefront Studies program was started as a special international program supported by the Japanese Ministry of Education, Culture, Sports, Science and Technology, and the department has received more than 150 students from foreign countries including developing countries. In 2001, the Graduate school of Environmental Studies was established, as the first interdisciplinary postgraduate course in Japan by integrating from natural sciences to engineering and social scientists. In addition, the Nagoya University Global Environmental Leaders Program (NUGELP) was established in 2008 to develop environmental leaders who are able to identify and investigate environmental problems from a global and holistic perspective, and propose practical measures to solve them in the world.

A large number of graduates mainly from the both international programs are supporting the growth of Japan and foreign countries as specialist of respective fields.

Civil & Environmental Engineering International Program Office

Civil and Environmental Engineering International Programs Office (CEEIPO) aims to assist the academic life of international students by providing information for admissions, orientation and 2 types of International Programs (NUGELP and Forefront Studies Program). We welcome any questions and inquiries you have about our activities.

KAWAHARA, Hiroko (Advisor for Dept. Civil and Environmental Engineering)

Room 105, Engineering Building 8, School of Engineering, Graduate school of Engineering

Tel: +81-52-789-6050, Fax: +81-52-789-3736, E-mail: fso@civil.nagoya-u.ac.jp

Laboratories and Faculty members

The Nagoya University Civil and Environmental Engineering groups consist of the below two organizations:

- Department of Civil and Environmental Engineering, Graduate School of Engineering (**Civil**)
- Sustainable Development Course, Department of Environmental Engineering and Architecture, Graduate School of Environmental Studies (**Environment**)

The faculty members are belonging to either department. Our group consists of the below laboratories:

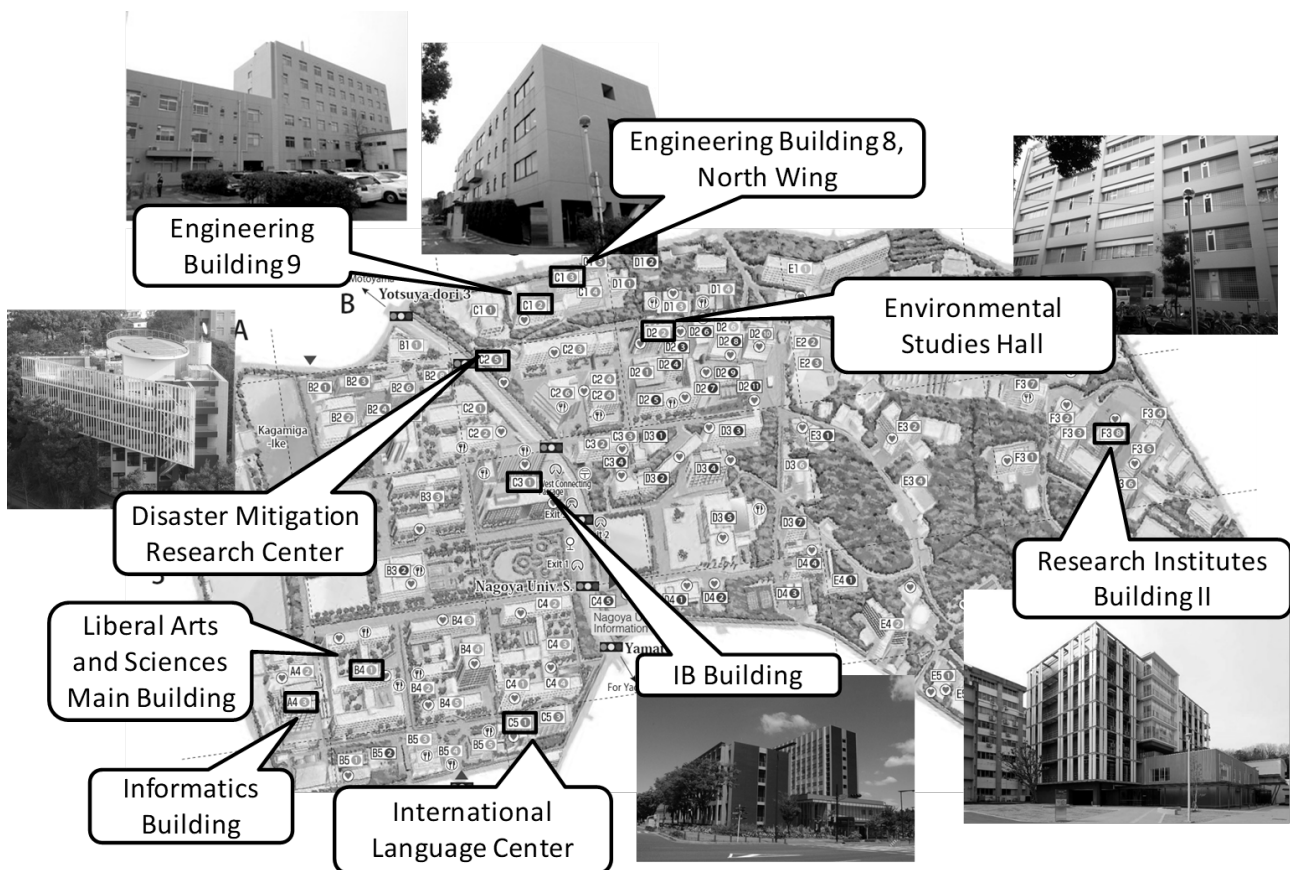

* Member of Civil and Environmental Engineering International Programs Office (CEEIPO)

Laboratory	Faculty member			
	Name	Position	Department	Room
Structural Engineering and Materials	KATO, Junji	Professor	Civil	8-315
	NISHIGUCHI, Koji	Lecturer	Civil	8-319
	HOSHIBA, Hiroya	Assistant Professor	Civil	8-317
Steel Structures and Bridge	TATEISHI, Kazuo	Professor	Civil	9-629
	HANJI, Takeshi	Associate Professor	Civil	9-625
	SHIMIZU, Masaru	Assistant Professor	Civil	9-627
Concrete Structures and Materials	NAKAMURA, Hikaru	Professor	Civil	9-529
	MIURA, Taito*	Associate Professor	Civil	9-527
Coastal and Ocean Engineering	MIZUTANI, Norimi	Professor	Civil	8-415
	NAKAMURA, Tomoaki	Associate Professor	Civil	8-419
	CHO, Yonghwan	Assistant Professor	Civil	8-417
Hydraulic Engineering/ River Basin Management	TODA, Yuji*	Professor	Civil	9-201
	TSUBAKI, Ryota	Associate Professor	Civil	9-205
	OBANA, Makiko	Lecturer	Civil	9-203
Geotechnical Engineering	NAKANO, Masaki	Professor	Civil	9-329
	SAKAI, Takayuki	Assistant Professor	Civil	9-327
Geo-Disaster Prevention Engineering	NODA, Toshihiro	Professor	Civil	9-317
	NAKAI, Kentaro	Associate Professor	Civil	9-313
	YOSHIKAWA, Takahiro*	Assistant Professor	Civil	9-315
	TOYODA, Tomohiro	Assistant Professor	Civil	9-319
Transportation Planning	MORIKAWA, Takayuki*	Professor	Environment	8-401
	YAMAMOTO, Toshiyuki	Professor	Civil	8-409
	MIWA, Tomio	Associate Professor	Civil	8-309
	TASHIRO, Mutsumi*	Lecturer	Environment	8-405
Traffic Engineering	NAKAMURA, Hideki	Professor	Environment	9-227
	KAKIMOTO, Yuji	Assistant Professor	Environment	9-229
Sustainable Development	KATO, Hirokazu	Professor	Environment	9-309
Environmental Policy and Impact Assessment	HAYASHI, Kiichiro	Professor	Civil	II-519

Environmental System Analysis and Planning	TANIKAWA, Hiroki* SHIRAKAWA, Hiroaki GUO Jing*	Professor Associate Professor Assistant Professor	Environment Environment Environment	E-505 E-506 E-510
Environmental Emergency Management	HIRAYAMA, Nagahisa	Associate Professor	Environmental	D-306
Microbial Ecological Engineering	KATAYAMA, Arata KASAI, Takuya	Professor Assistant Professor	Civil Civil	II-501 II-503
Ground Design	TOMITA, Takashi NAKAMURA, Shinichiro	Professor Lecturer	Environment Civil	9-301 9-307
Road Design and Transport Operation	IRYO, Miho*	Associate Professor	Environment	8-203
International Development	NAGAISHI, Masafumi*	Professor	Civil	9-427
Material and Energy Design	HIBINO, Takashi ZINCHENKO, Anatoly IWAMATSU, Sho-ichi*	Professor Associate Professor Associate Professor	Environment	L-S481 I-711 I-707

Curriculum

Courses and Degrees

Students who have completed a course of study at a graduate school shall be granted a master's/ doctoral degree. The master's/doctoral students in the Sustainable Development Course can choose a degree conferred between Master/Doctor of Engineering and Master/Doctor of Environmental Studies. Degree requirements differ by type of Department/Graduate School and Degree.

*G30: Civil and Environmental Engineering Graduate Program of Nagoya University Global 30 International Programs

Degree Requirements

◆ Department of Civil and Environmental Engineering, GSE General Students, Master/Doctor of Engineering

Master/Doctor of
Engineering

Civil
General

	Master's Course	Doctoral Course
Basic Courses 基礎科目	At least 6 credits including 'Frontier in Civil Engineering'	
Specialized Courses 専門科目	At least 19 credits including Seminars (8 credits), Selective Compulsory Lectures* (8 credits) and Exercise (1 credit)	At least 4 credits from Seminars
Courses from other departments** 他専攻等科目	At least 2 credits	
Comprehensive engineering courses 総合工学科目	A maximum of 2 credits will be recognized as credits required for completion.	
Total	At least 30 credits	At least 8 credits

Research Instruction by Academic Advisor(s) is compulsory.

*Selective Compulsory Lectures

*Advanced Course in Lifecycle Design of Civil Structures / Advanced Fluvial and Coastal Hydrodynamics /
Advanced Geotechnical Engineering / Advanced Infrastructure Planning / Low Carbon Cities Studies /
Advanced Numerical Analysis*

**Courses from other departments

Of class courses offered by

- **Other Departments** of Graduate School of Engineering
- Departments of **Other Graduate Schools**
- **Graduate School Common Courses**
- Graduate Schools of Other Universities under a Credit Transfer Agreement
- Undergraduate Class Courses approved by your supervisor and the head of department

◆ **Department of Civil and Environmental Engineering, GSE**
G30 Students, Master/Doctor of Engineering

Master/Doctor of
Engineering

Civil
G30

	Master's Course	Doctoral Course
Basic Courses 基礎科目	At least 6 credits including 'Frontier in Civil Engineering'	
Specialized Courses 専門科目	At least 19 credits including Seminars (8 credits), Selective Compulsory Lectures* (8 credits) and Exercise (1 credit)	At least 4 credits from Seminars
Courses from other departments** 他専攻等科目	At least 2 credits	
Comprehensive engineering courses 総合工学科目	A maximum of 2 credits will be recognized as credits required for completion.	
Total	At least 30 credits	At least 8 credits

Research Instruction by Academic Advisor(s) is compulsory.

***Selective Compulsory Lectures**

*Advanced Course in Lifecycle Design of Civil Structures / Advanced Fluvial and Coastal Hydrodynamics /
Advanced Geotechnical Engineering / Advanced Infrastructure Planning / Low Carbon Cities Studies /
Advanced Numerical Analysis*

****Courses from other departments**

Of class courses offered by

- **Other G30 Programs** of Graduate School of Engineering
- **G30 Programs** of **Other Graduate Schools**
- **Graduate School Common Courses**
- Graduate Schools of Other Universities under a Credit Transfer Agreement
- Undergraduate Class Courses approved by your supervisor and the head of department

◆ Department of Environmental Engineering and Architecture, GSES
General Students, Master/Doctor of Engineering

Master/Doctor of
Engineering

**Environment
 General**

	Master's Course	Doctoral Course
Interdisciplinary subjects 体系理解科目	Minimum 4 credits	Minimum 8 credits from doctoral curriculum
Type 1: Lectures Type 2: Seminars Type 3: Workshops I 類, II 類, III 類	Minimum 20 credits (※1) including minimum 16 credits provided by EEA* , and minimum 8 credits from Type 2 subjects	
Courses provided by GS Engineering or Mandatory subjects** 工学研究科の授業科目, または指定科目	At least 4 credits (※2)	
Total	Minimum 30 credits or more	Minimum 8 credits

Research Instruction by Academic Advisor(s) is compulsory.

Note: You cannot have double credits of (※1) and (※2).

***EEA:** Department of Environmental Engineering and Architecture

****Mandatory subjects:** Type 1 subjects listed below: (Underlined Subjects: partially or entirely taught in English)

- *Engineering Design of Human Environment*
- *Engineering Design of Physical Environment*
- *Theoretical Analysis in Environmental Engineering*
- *Applied Continuum Mechanics*
- **Structural Analysis and Computational Mechanics**
- *Earthquake Engineering*
- **Architectural Environment System Design**
- *Seismic Design of Structures*
- *Experimental Structural Dynamics and Vibration Control*
- *Structural Materials*
- **Building Construction Engineering*****
- *Special Lecture on Environmental and Architecture 1, 2*
- *Latest Structural Engineering 1, 2*
- *Methodology of Social Risk*
- *Theory of Energy Balance in Urban Space*
- *Sustainable Infrastructure Engineering*
- **Frontier in Civil Engineering**
- **Environmental Systems Analysis and Planning**
- **Transportation Systems Analysis**
- **Advanced Traffic Engineering and Management**
- *Nanotechnology and Environment*
- *Recent Advances in Environmental Chemistry and Materials*

Subject List

- Department of Civil and Environmental Engineering, GSE, Master’s Coursepp.13-18
- Department of Civil and Environmental Engineering, GSE, Doctoral Coursepp.19-21
- Department of Environmental Engineering and Architecture, GSES, Master’s Course pp.22-26
- Department of Environmental Engineering and Architecture, GSES, Doctoral Course pp.27-26

***Given in English:**

Subjects partially or entirely taught in English

***Joint Classes offered by Civil Engineering and Environmental Studies**

The following classes are offered by both (Dept. Civil and Environmental Eng., GSE) and (Department of Environmental Engineering and Architecture, GSES) on the same room at the same time.

You can take as courses of your major, not as courses from other departments.

<Spring semester>

Course Registration Forms

Department of Civil and Environmental Engineering, GSE

◆ Plan for completion of Course 学修計画書

- ✓ Consult with your supervisor and make your course plan (2 years for Master students/3 years for Doctoral students). After receiving the signature from supervisor, submit the original to the department office (Room 105, Building 8) by the deadline (**April 23**).
- ✓ **For 2021 spring semester, if you cannot come to university, please submit the form to your academic advisor, and ask to stamp and submit to the department office instead of you.**
- ✓ Please send the form to the International Programs Office (ceeipo@urban.env.nagoya-u.ac.jp) to confirm that your plan meets the International Program requirements. (deadline: **April 23**)
- ✓ This format can be downloaded from the website of the Graduate School of Engineering as a PDF file or a Microsoft Excel file. http://www.engg.nagoya-u.ac.jp/current/regarding_plan.html

Plan for Completion of Course

I have created the following plan for the completion of the course and request approval of it.

Course type	Course Title	Credit	1st Year		2nd Year		3rd Year	
			Autumn Semester	Spring Semester	Autumn Semester	Spring Semester	Autumn Semester	Spring Semester
Total Credits					0		Credits	

Note: Be sure to read the "Instructions on Graduate School Registration" in advance.

◆ Online Course Registration

Web 履修登録

- ✓ Students are required to do Course Registration on the NU (Nagoya University) Portal using your Nagoya University ID every semester. Login to NU Portal <https://portal.nagoya-u.ac.jp/> ⇒ Click on "Student Affairs" ⇒ Click on "Course Registration" from "Course/Grades" on the menu bar.

*New students can log in to the NU Portal from the day of enrollment (April 1)

***Registration period for AY2021 Spring semester: April 2 (Fri) 9:00 am – April 3 (Sat) 12:30 am.**

- ✓ The timetable and syllabus are available on the website of Graduate School of Engineering: <http://www.engg.nagoya-u.ac.jp/> ⇒ "Current Students"
- ✓ If you want to take "Other graduate schools' classes" or "Graduate School Common Courses", you need to submit the "**Registration Request Form**" (see the next page), in addition to online
- ✓ For convenience, all courses are set as "Intensive Lecture". Find and enter the course you want to take from "Intensive" in the "Course Registration" menu. There may be multiple classes with the same course title, such as "Seminar" and "Experiments and Exercises", so please be careful when selecting a course.
- ✓ Avoid input during maintenance periods (6pm-7pm, 4am-5am). It is not possible to guarantee the entered data.
- ✓ If students have lost their Nagoya University ID or there are issues with their password, please contact the Information Media Office (e-office@media.nagoya-u.ac.jp) Re-issuance may take approximately 1 week.
- ✓ For queries concerning the course registration contact the Student Affairs Division, Graduate School of Engineering (koukyomu@adm.nagoya-u.ac.jp)

◆ Registration Request Form

履修願

- ✓ **In case of registering “Other Graduate Schools’ classes” or “Graduate School Common Courses”,** you must submit a “Registration Request” to the Student Affairs Division of GSE (2nd floor, IB Building) by the deadline (2021 Spring semester: April 19, 10:30 am).
- ✓ **For 2021 spring semester, if you cannot come to university, please submit the form to your academic advisor, and ask to stamp and submit to the Student Affairs Division of GSE instead of you.**
- ✓ Please note that if the request is not submitted during this period, the credits earned may not be counted towards credits necessary for graduation or completion.
- ✓ Please get the form at the Student Affairs Division of GSE every semester (you can download from the website of the Graduate School of Engineering as a Microsoft Word file).

Registration Request Form

I hereby apply for permission to take the course listed below.

Faculty in charge	Approval Seal (Faculty in charge)	Course Title	Semester (Spring/ Autumn)	Day and Period	Credit Value	Contents of Credits for Approval ① Check the corresponding item. ② Refer to note.	Name of School/ Grad. School
						<input type="checkbox"/> Course Completion Credits <input type="checkbox"/> Optional Credits	
						<input type="checkbox"/> Course Completion Credits <input type="checkbox"/> Optional Credits	
						<input type="checkbox"/> Course Completion Credits <input type="checkbox"/> Optional Credits	
						<input type="checkbox"/> Course Completion Credits <input type="checkbox"/> Optional Credits	

[Note]

1. Contents of Credits for Approval (Mark the appropriate item.)
 Course Completion Credits : Courses whose credits be counted towards necessary for graduation or completion
 #Approval seals of Head of Department, Academic Adviser and Faculty in charge are necessary.
 Optional Credits : Courses registered but without credits awarded.(Take a course as the "Optional Course".)
 #Approval seals of Academic Adviser and Faculty in charge are necessary.
2. In addition to submission of "Registration Request", students should complete regular registration application. (Graduate students should complete a "Plan for Completion of Course".)
3. A form should be submitted separately to each registration division or school.
4. Note that credits may not be counted towards graduation or completion in case that this form is not be submitted by the deadline.

Submission Deadline(Autumn Semester) : October 15 (Thu)
Submit to : Student Affairs Division, School/Graduate School of Engineering

Note: The above format is for the autumn semester of last year. Please get the latest format every term.

Department of Environmental Engineering and Architecture, GSES

◆ Course Plan

履修計画書

- ✓ The form can be downloaded from the GSES online bulletin board (Current Students > Messages from GSES Student Affairs Office), as a Microsoft Word file. (User ID: k-stud and password: 4590)
<http://office.env.nagoya-u.ac.jp/students/bulletin/keiji.php?menuNO=2>
- ✓ Consult with your supervisor and make your course plan (2 years for Master students/3 years for Doctoral students). After filling out the all the items in the Course Plan form, submit to your academic adviser via e-mail by **April 23**.
- ✓ You need to fill out a lead advisor and no less than one advisor. (No need to have your supervisor's seal.)
- ✓ Please send the form to the International Programs Office (ceeipo@urban.env.nagoya-u.ac.jp) to confirm that your plan meets the International Program requirements. (deadline: **April 23**)

◆ Online Course Registration

Web 履修申請

- ✓ The Course Time Table is downloadable from GSES online bulletin board (User ID: k-stud and password: 4590). <http://office.env.nagoya-u.ac.jp/students/bulletin/keiji.php?menuNO=2>
- ✓ The syllabus is available from the following website. Please check the syllabus about how to conduct the courses (face-to-face classes/online classes), or ask the instructor. <https://syllabus.adm.nagoya-u.ac.jp>
- ✓ The Students are required to do Course Registration on the NU Portal. Please register the course for which you have permission to attend.

Registration Period: from 9:00, April (Fri) to 12:30, April 2 (Sat)

Login to NU Portal <https://portal.nagoya-u.ac.jp/> → Click on "Student Affairs" → Click on "Course Registration" from "Course/Grades" on the menu bar.

★Instructions for Course Registration:

1. Check the "Day/Period" of the course that you would like to register by Course Time Table, and Click the "Day/Period" and select the Time Table Code that you would like to register. Please be sure to click "Register Entry".
 - ※ If you want to register for subjects offered by other (under)graduate schools, register the courses from "Select other Dpt. Courses" menu on the NU Portal in the Registration period, and submit **"Registration for subjects in Other (Under)graduate Schools"** (see the next page) by April 16.
2. To register for an intensive course at the Graduate School of Environmental Studies, click the "Select Intensive Courses". The schedule for intensive courses will be posted on the online bulletin board at a later date.
3. Of the courses registered for the first time in the "Registration Revision (Addition and/or Cancellation)" Period, if the courses use NUCT, please request the professors in charge of the course to add them to NUCT individually.
4. If you want to register for subjects offered by other departments of GSES or other (under)graduate schools, please consult your academic advisor and the professors who are in charge of the subjects beforehand.
5. The "Course Registration" is different from the "Course Plan." Please note that the "Course Registration" must be submitted before every semester.
6. Change or withdrawal of course subjects are basically not allowed to be made after the registration period.

◆ Registration Form for Courses at Other Graduate School

他研究科授業科目履修願

- ✓ If you wish to earn credits by taking subjects taught at other (under)graduate schools (including intensive courses), please submit a completed form for “Registration for Subjects in Other (Under)graduate Schools” (downloadable from GSES online bulletin board) with the consent of your academic advisor and the professors in charge of the subjects (No seal is required.) to your academic adviser via e-mail, and ask him/her to send to the Student Affairs Office of GSES (env@adm.nagoya-u.ac.jp) by **April, 16.**
- ✓ Please register the Subjects in Other (Under)graduate Schools in NU portal in the Registration period (by April 3).

Graduate School Common Courses

大学院共通科目

- ✓ Nagoya University Graduate School Common Course can be taken.
- ✓ Syllabus can be downloaded on the below website:
<https://office.ilas.nagoya-u.ac.jp/nagoya-university-graduate-school-common-courses/>

【Registration period on NU Portal】 April 2 (Fri) 9:00 ~ April 3 (Sat) 12:30

Depending on the courses, course adjustment and reason for application might be required. Please check the required courses on syllabus, and send an email to the instructors in charge about the reason why you want to take this course at the same time as online course registration.

- ✓ You need to submit **“Registration Request Form” (GSE students)/ “Registration Form for Courses at Other Graduate School” (GSES students)** to your GS Student Affairs Office or to your academic advisor via e-mail.
- ✓ The credits are counted as degree credits for GSE students. **But for students of the GSES, the credits are not counted as course completion credits.**

Civil & Environmental Engineering International Programs

2 Types of International Programs

The Students of Dept. of Civil and Environmental Engineering of GSE and Spatial Planning Environmental Course of GSES can join either or both of the following two international programs. In addition to the master's/doctoral degree, a special certificate will be awarded to the participants who complete the program.

◆ NUGELP

Nagoya University Global Environmental Leaders Program

NUGELP aims to cultivate environmental experts who are able to identify and analyze cross border environmental problems from global and holistic perspectives, and propose practical measures to solve those issues.

NOTE All students of **JDS, ABE and PEACE must participate** in the NUGELP.

◆ Forefront Program

Forefront Studies Program on Civil and Environmental Engineering towards Co-Development of Asia and Japan

Forefront program aims to cultivate international civil engineers with advanced expertise who are capable of making comprehensive judgements and utilizing their knowledge to contribute to the sustainable co-development of Japan and foreign countries in the civil engineering field.

NOTE

- The **scholarship students** by Japanese Government (Monbu-Kagaku-sho; Ministry of Education, Culture, Sports, Science and Technology) **must participate** in the Forefront Program.
- G30 students and private founded students are **recommended to participate** in the Forefront Program.

: Subjects provided by Dept. of Civil and Environmental Engineering, Graduate School of Engineering (GSE)

: Subjects provided by Graduate School of Environmental Studies (GSES)

NOTE “Civil Engineering and Policies for Developing Countries I or/and II” is not required if you had already acquired as degree credits of Master’s course.

NOTE “Global Research Internship 2” or “Global Research Internship” is not required if you had already acquired “Global Research Internship 1” or “Global Research Internship” as degree credits of Master’s course (this rule refers only to Forefront Program students of Doctoral Course).

Global Research Internship (GRI)

■ Relating subjects

Subject Title	NUGELP		Forefront Program			
	Master's Course		Master's Course		Doctoral Course	
	Environment	Civil	Environment	Civil	Environment	Civil
<input type="checkbox"/> Global Research Internship	○		○		○	
<input type="checkbox"/> Global Research Internship 1		○		○		
<input type="checkbox"/> Global Research Internship 2						○

○:Compulsory for completing the program.

■ Objectives

GRI aims at providing students research-based internship opportunities at universities, research institutions, companies, governmental and non-governmental organizations in Japan and overseas to acquire the ability to conduct practical and applied research. Internship should be conducted based on close communication with academic advisor(s). Students are expected to acquire practical research know-how through On-site Research Training (ORT). Details of the Internship such as period and terms of implementation should be decided through consultation with academic advisor(s) and experts at host institutions.

■ Evaluation

Performance is graded by Pass or Fail (2 credits).

Grading shall be based on evaluation reports by academic advisor(s) and experts at host institutions, and student's reports (Initial report, Detailed report and Final report).

■ Schedule

Step 1: Submission of Initial Proposal	Within six weeks after GRI orientation*
Step 2: Submission of Detailed Proposal	By a month prior to the departure*
Step 3: Internship	more than 2 weeks (more than 10 days except Saturday, Sunday and holidays)
Step 4: Submission of Final Report Summary Report	Within a month after completion of the internship*

■ Financial Assistance

A part of the expenses for your GRI activity is financially supported by your laboratory. Each student must consult with your supervisor about the financial assistance. Basically, the following 2 items are financially supported by your laboratory:

1. Return flight/train tickets
2. Daily allowance: - Japan: 500 JPY/day - Overseas: 1,000 JPY/day

■ Document Formats

[Form 1] Initial Proposal

[Form 2] Detailed Proposal

[Form 3] Internship Pledge (submitted to the host institution)

[Form 4] Internship Pledge (based on MOU [Form M], submitted to the International Programs Office)

[Form 5] Internship Pledge (submitted to the International Programs Office)

[Form 6] Internship Pledge (for overseas internships, submitted to the International Programs Office)

- Forms 1-2 are available on the CEEIPO website.
 - <http://www.civil.nagoya-u.ac.jp/ceeipo/current-students.html>
- Form 3-6 is to be prepared through the International Programs Office when it is necessary. If it is required, please contact the International Programs Office (Room 223, Environmental Studies Hall).

■ Final Report

Final report should be submitted as a clean copy, typed or printed from a word processing program upon white paper of A4 size, **within a month after completion of the internship.**

The following contents should be included:

1. Cover
2. Table of Contents
3. Background and Challenges
(The reason why you selected the institution)
4. Objectives of the Internship
5. Basic Information of your GRI Host institution,
6. GRI Period
7. Achievement and Results of the Internship
(what you did during the GRI, what you could achieve through the GRI)
8. Conclusion
(Your opinion/comments/impressions/suggestions after GRI)
9. Reference
10. Signature of Supervisor

■ Checklist for GRI

No.		Date of task completion	✓
Prior to commencing your Internship			
1	Make sure to obtain permission from your academic advisor because the expenses of your internship is partly supported by your laboratory	Required	<input type="checkbox"/>
2	Submission of Initial Proposal [Form 1]. Ensure that the period of your GRI is more than 10 days except Saturday, Sunday, and holidays	Required within six weeks after GRI orientation	<input type="checkbox"/>
3	Submission of Detailed Proposal [Form 2]	Required by a month prior to your departure	<input type="checkbox"/>
4	Submission of CV and Internship Pledge to your host organization /institution	If necessary	<input type="checkbox"/>
5	Submission of Internship Pledge to the International Programs Office	If necessary	<input type="checkbox"/>
Students participating in internships at an overseas host organization/institution must also complete the following tasks.			
6	Obtain a visa, purchase flight tickets, and take any required vaccinations depending on the destination	If necessary	<input type="checkbox"/>
7	Take out insurances: - 学生教育研究災害傷害保険(学研災) (Personal Accident Insurance for Students Pursuing Education and Research (Gakkensai)) - 学研災付帯賠償責任保険 (Liability Insurance coupled with Gakkensai)	Prior to your departure	<input type="checkbox"/>
8	Purchase overseas insurance (liability insurance must be included)	Prior to your departure	<input type="checkbox"/>
9	Submission of a Notification of Overseas Travel Form (海外渡航届) to the office in charge: Online: https://tokou.iee.nagoya-u.ac.jp/home GSES: Academic and Student Section (大学院掛) GSOE: Civil & Environmental Engineering Office (土木工学専攻事務室)	Required by a week prior to your departure	<input type="checkbox"/>
10	Submission of Internship Pledge to the International Programs Office	If necessary	<input type="checkbox"/>
After completion of your internship			
11	Submission of Final Report to your academic advisor and the International Programs Office (both hard and soft copy)	Required within a month after completion of the internship	<input type="checkbox"/>
12	Submission of Summary Report	Required	<input type="checkbox"/>
